

**Panel: Grant Writing for Early Career Researchers**

Location: TBD

Participants: Alexandra D'Arcy, Robin Dodsworth and Monica Macaulay

Moderator: Eric Raimy

This informal panel brings together experienced grant reviewers to provide early career researchers with insider knowledge of the process and what reviewers and panel members are looking for in fundable proposals. It will cover a wide range of topics, from an introduction to funding opportunities, to creating a coherent narrative, to what elevates (or sinks) proposals, and will also offer advice on grant-crafting best practice. Although the discussion will be contextualized within Canadian and US funding programs, the scope will be broadly applicable. The panel presentations will be followed by a Q&A session.
